

After studying EACH page of EACH tab of lesson 4.07, you will be able to:

- correctly use Negative Expressions in Spanish sentences.

For this Voice Activity, you will need to **create 2 complete Spanish sentences using NEGATIVE expressions in real life situations**. Try your best to include many details. Improve your pronunciation and fluency by listening to the vocabulary audio recordings in the lesson several times, repeating the words out loud, and rehearsing your script several times before recording it.

FIRST, let's take a look at the vocabulary.

Which are the Spanish NEGATIVE Expressions?

The **NEGATIVE** expressions in Spanish are:

nunca: never

nada : nothing / not anything

nadie : no one / not anyone

ninguno / ninguna :none / not any

For example:

I **NEVER** go to school on Sundays.

NO ONE buys food at the library.

I do **NOTHING** during my vacation.

I **DON'T** do **ANY** of my chores on Friday nights.

The word **NO** has to be present in the sentence before the verb, if the negative expression is used at the end of the sentence. (Yes, we use double negatives in Spanish sentences, and it's correct, based on what I just explained.) (Examples: “ I **don't** see **anyone**”. “I **don't** cook **anything**.”)

But if the negative expression is used at the beginning of the sentence, then you don't need to use the word NO.

(Examples: “ **Nothing** scares me.” “ **No one** came to the party.”

NEXT: Use the Vocabulario listed above in **COMPLETE SPANISH SENTENCES**, to create 2 sentences about real life situations, using Negative Expressions.

1. _____

2. _____

EXAMPLES: (PLEASE, WRITE YOUR OWN ORIGINAL SENTENCES.)

Yo **no** compré **ninguna** camisa ayer. (I didn't buy any shirts yesterday.)

Nadie trabaja conmigo. (No one works with me.)

Nunca bailo en las fiestas. (I never dance at parties.)

No tengo **nada** que hacer ahora. (I have nothing to do now.)
